Airbrush Makeup Course

This in-depth 2 day program will provide hands-on instruction and training using salon airbrush equipment and product. It provides participants with the skills and knowledge necessary to correctly use, troubleshoot and repair an airbrush makeup system, a revolutionary new technique and product designed specifically for the cosmetic industry of the new millennium. It will focus on the use of airbrush makeup for beauty, wedding and photography as well as film and TV makeup.

Airbrush applications result in ultra-light foundations, flawless shading, and perfect skin texturing. With glamour, fantasy and opalescent colors that cover the spectrum of the rainbow, anything, and everything is possible. Individual skin tones of any color are perfectly matched in minutes. Airbrush makeup dries almost instantly, requires no setting or powdering, is water-based and completely hypoallergenic.

Gail Ruginis is a Professional Makeup Artist specializing in Airbrush Makeup. She is a Certified Airbrush Instructor and has been teaching airbrush makeup for over 10 years.

COST: \$395.00 plus tax
