

Puberty, Pregnancy and Menopause

International Dermal Institute (IDI)

COURSE OUTLINE

Do you know how to confidently guide your clients through the many changes that their skin will undergo as they age? Understanding the role hormones play in the condition of the skin is vital to recommending correct product usage for each client. The fluctuation of hormones can play havoc on the skin and affect each stage of development differently.

INSTRUCTOR

Paula Hogan holds qualifications from BATAAC and internationally recognized certificates in Reflexology and Aromatherapy. Her passion for learning has taken her from working in a renowned health spa in England to traveling throughout the world on major cruise ships. She joined the International Dermal Institute in 1999 teaching advanced skin and body techniques throughout Canada. Her current role within the company is as a Senior Instructor lecturing at trade shows and locations throughout the country as well as overseeing the training and development of new staff members.
